

FREEDOM SOS

Medical GPS Monitoring

ANNOUNCING DEALER OPPORTUNITY

OPPORTUNITY

More and more seniors are **staying active** and are constantly on the move. This means that they also could use medical assistance at any time and in some instances they may not be able to give their location. With the development of new technology, we have just launched one of the greatest solutions we feel can make a big impact to help assist a senior in their time of need.

Freedom SOS uses a combination of GPS and cellular technology to provide **24 hour a day emergency monitoring** of seniors, people with disabilities, Alzheimer or Dementia patients and children. By placing one of our GPS tracking watches on, an individual can be monitored by two UL listed monitoring stations that receive a signal from the watch by pressing the **SOS** button.

When the **SOS** button is activated, it will send a signal to the monitoring station allowing them to talk to the customer through a two-way cellular device in the unit along with receiving a GPS location within 15 feet of the actual location of the individual. The station can then notify police, medical or the fire department of an emergency.

We have 2 UL Listed Monitoring Stations that monitor your clients 24 hrs a day 7 days a week. Fully trained and certified staff bring comfort in that time of need.

Watch Features

AGPS -Assisted GPS
For outdoor / indoor location

GEO FENCE- Places an electronic border to notify if they have left a specific area.

GSM/ GPRS Quad Band-
Worldwide coverage

G-Force Sensor- Automatically calls the monitoring station when it detects slip and fall injuries or automobile accidents.

Over Speed Alert- Reduce driving risk

Phonebook-
For talking to friends & families

SOS Button- One press of the SOS button during an emergency puts you in direct communication with our Monitoring Station.

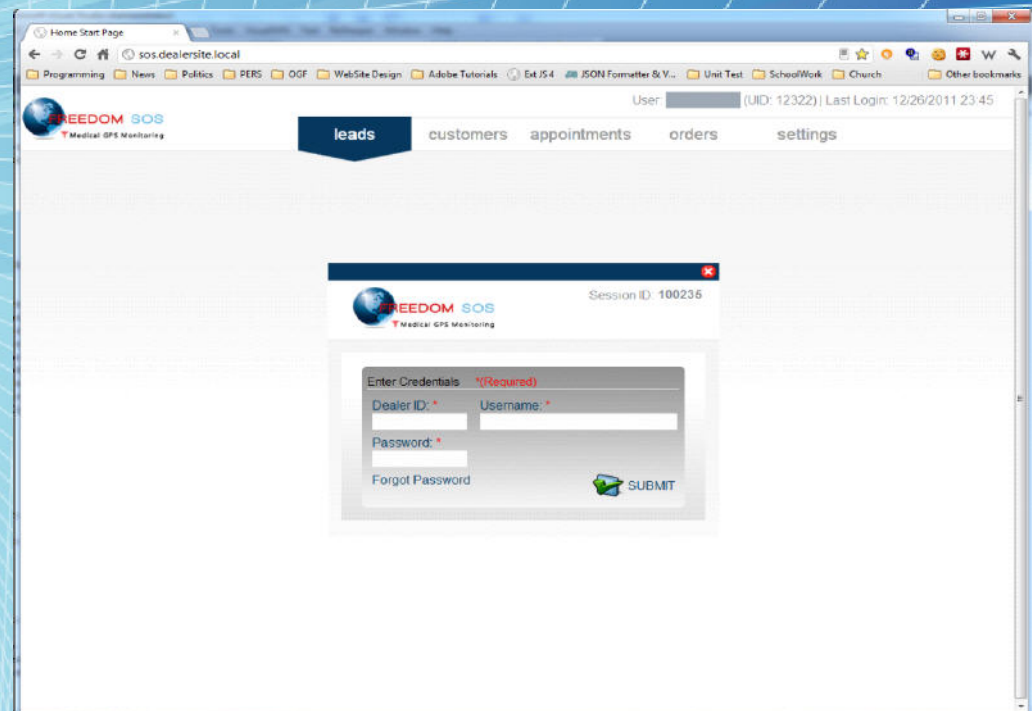

OUR TARGET MARKET

- **Seniors-** A major concern is the ability receive immediate help during an emergency. Slip and fall injuries can happen anywhere and our unit can notify the monitoring station of this automatically.
- **People with Alzheimer's or Mental Disabilities-** Use of our geo-fence prevents them leaving a defined area.
- **Assisted Living and Nursing facilities-** Commercial accounts can be established to offer a better living environment for their residents.
- **Dangerous occupation jobs-** Employers can track and offer safety to their employees of dangerous occupations.

We offer a Turn-key Dealership:

- ❑ Monitoring of your clients 24-7-365. (No need to spend 1.5 million to buy a monitoring station and attain all the licenses and insurance.)
- ❑ Custom customer service database with extensive reporting features. (Cost over 500k. Yours FREE)
- ❑ Website.
- ❑ Website portal with dealer login
- ❑ All software is developed from our personal engineers
- ❑ GPS watch and other tracking devices
- ❑ Lead capture and reporting
- ❑ Brochures and Marketing Material
- ❑ Sales Force Automation
- ❑ Sales and backend support training
- ❑ Developed sales presentation to get you producing right away

HOW MUCH TIME DO YOU ACTUALLY SPEND MAKING MONEY VS. SERVICING THE CUSTOMER?

**100% CUSTOMER SERVICE
PROVIDED AFTER YOU
MAKE THE SALE!**

**THIS MEANS YOUR TIME IS 100% FREE
TO CONCENTRATE ON MAKING MONEY**

**WHAT OTHER COMPANY OFFERS THIS? NOT MANY, AND THE REASON
IS OUR SUCCESS DEPENDS ON YOU. YOUR NOT MAKING MONEY IF ALL
YOUR DOING IS SERVICING CUSTOMERS.**

Business Model

By running a small sales force of 4-6 representatives a dealer can expect net profits of 200k-300k 1st year and renewals starting the 3rd year. But who said you have to stop at 6 sales reps.

Investment required: REDUCED FOR A LIMITED TIME

~~\$4,995~~ to ONLY \$1,995.00 to get started. This includes a working watch to demonstrate and a sales presentation. We will work to train you and your sales force together.

FYI any small business requires stocking of inventory, advertising, hiring for some form of customer service, payroll accounting and much more to get started. You could easily invest 50-60k in a small venture and would not have the capability to earn the income you can helping people with our service. Call us at 1-888-642-5277 to schedule a webinar to learn more.
